Summary

Software Developer with **1+ year of professional experience** specializing in **PHP, Laravel, and MySQL**. Currently working at AWP Solutions Pvt. Ltd., contributing to the development of **Ambar ERP**, a large-scale textile retail ERP system. Experienced in building and maintaining backend modules for sales, purchase, inventory, and finance workflows in a collaborative team environment. Strong understanding of ERP systems, relational databases, and real-world business logic.

Skills

Languages: PHP, JavaScript, MySQL, HTML, CSS

Technologies & Tools: Laravel, Filament, jQuery, React JS, tailwind, Bootstrap, Git, GitHub

Experience

Software Developer

Jan 2025 – Present

Advance Web Platforms (AWP Solutions Pvt. Ltd.), Coimbatore

- Working as a backend developer on **Ambar ERP**, a comprehensive ERP platform for textile retail businesses.
- Contributing to core ERP modules including **Sales, Purchase, Inventory, Masters, and Settings**.
- Developing backend logic using **PHP, Laravel-style MVC architecture, and MySQL**.
- Implemented workflows for sales billing, credit sales, returns, refunds, payments, and **GST tax calculations**.
- Worked on inventory automation including inward/outward movements, stock adjustments, and audit logs.
- Writing and optimizing complex SQL queries across a large relational database.
- Collaborating with team members for code reviews, bug fixes, and production feature enhancements.

Software Developer Intern

Oct 2024 – Dec 2024

Advance Web Platforms (AWP Solutions Pvt. Ltd.), Coimbatore

- Contributed to backend development for internal applications using **Laravel and MySQL**.
- Worked on a **Finance Management Application** using **Filament**.
- Built and customized Filament resources, forms, and tables.
- Implemented backend validations and basic finance workflows.
- Gained experience working with a production-level codebase and team development practices.

Projects

Ambar ERP – Textile Retail Management System

PHP, Laravel-style MVC, MySQL, jQuery, Bootstrap

Live: <https://ambarerp.com/>

- Enterprise-level ERP platform managing sales, purchase, inventory, production, job works, incentives, and finance.
- Worked on sales invoice creation, payments, credit sales, returns, and customer workflows.
- Assisted in purchase management including supplier linkage, tax handling, and inventory updates.
- Contributed to real-time inventory tracking and GST (SGST, CGST, IGST) calculations.
- Worked with complex relational schemas involving 100+ tables.

Personal Portfolio

React JS, CSS, Framer Motion, EmailJS

Live: <https://janaharan-portfolio.netlify.app/>

- Developed a personal portfolio website to showcase projects and skills, ensuring a fully responsive design across devices.
- Utilized React JS and CSS for the core structure and styling, integrating Framer Motion for smooth animations and EmailJS for contact form handling.
- Enhanced professional visibility and online presence by creating an engaging, easy-to-navigate portfolio website.

Avoberry – Business Web Application

PHP, Laravel, MySQL, jQuery, Bootstrap

Live: <https://avoberry.in/>

- Contributed to backend development and ongoing maintenance as part of a collaborative team.
- Worked on database models, CRUD operations, and controller-level business logic.
- Assisted in frontend-backend integration using jQuery and Bootstrap components.
- Implemented minor frontend UI enhancements and form validations.
- Fixed bugs across both backend and frontend layers to improve application stability.
